# KITTEN SEASON IS HERE!

We have had a very busy spring! We took in over FORTY cats and kittens from one local home. Many were pregnant mothers who were still kittens themselves. FOBA took in several of the litters, and Cape Ann Animal Aid took others. Our foster homes are full and happy with lots of love for these cats who need a bit of socialization and a clean, quiet home to relax in before they venture out to their forever homes. These are Blossom's kittens - three have already been adopted, and will go to their new homes in mid May.

**BLOSSOM was living in a garbage pile when she was spotted by a local resident. We trapped her just in time for her to have her kittens in a safe, dry home. If you are looking for a beautiful cat to wander your home and sit in the window, but who doesn't want too much affection, Blossom might be the girl for you!**

**BENNY is a loving lap cat who is looking for his forever home. He purrs and loves attention. If you are looking for someone to hang out with all day, pet and give treats, Benny would love to come live with you in your quiet home. He has his shots, is clean of feline illnesses and is neutered. He always uses his litter box.**

DONATE!

Please help us to continue to rescue kitties all year long! All donations go to vet bills, food, litter, etc.

## ADOPT!

If you are interested in adopting any of these kitties please contact FOBA:

foba2007@gmail.com

**ROBERTO** is a fun and fabulous cat who is looking for his forever home. This boy will play with toys by himself, but really loves to just sit with you and be petted. His foster homes have fallen in love with him. He will explore every corner of the house and sleep on your feet quietly. If you are looking for a fun, friendly boy, please contact us about adopting Roberto. He is young, has his medical done and always uses his litter box.

**VELVET** came to us as a pregnant surrender. She was a joy to have for a few months in our foster home while she raised her four beautiful kittens. Velvet found a loving home with a family and their two children. The kids love having a new cat after losing their two elderly cats.

**BRUCE** likes to look out the window in his quiet bedroom and is waiting for a quiet home to relax in and feel loved. He has all his medical done and is a wonderful boy. Please contact us for more information to find out if this handsome, gray tabby boy will fit into your home.

We were contacted by a local person about a cat who looked sick and mostly just huddled down in the dirt. We took Irving to the vet and had all his medical completed. He received an antibiotics shot for a face infection. We hope as the swelling goes down, he will like us more, but we are still working with Irving and hoping for better days for this beautiful boy.
